

# HEXAGON

## HEXAGON AB

### 2020 Industry Partnership Award

Hexagon is a global leader in sensor, software and autonomous solutions, putting data to work to boost efficiency, productivity and quality across industrial, manufacturing, infrastructure, safety and mobility applications. Hexagon technologies are shaping urban and production ecosystems to become increasingly connected and autonomous — ensuring a scalable, sustainable future.

Hexagon's Mining division is helping to connect all parts of a mine with technologies that make sense of data in real time. Driven by professionals for professionals, Hexagon offers solutions that are tailored to customer needs and delivered on their terms — short term, long term, for the life of mine.

Mining depends on precision, accuracy, and safety. Mines must find ways to integrate, automate and optimize critical workflows for a competitive edge. Now more than ever, the industry must cut costs while improving safety. Hexagon solves these challenges with proven technologies for planning, operations and safety.

Hexagon's Mining division brings surveying, design, fleet management, production optimization and collision avoidance together in a life-of-mine solution that connects people and processes. The result is customers are safer, more productive and can make sense of their data.

Hexagon (Nasdaq Stockholm: HEXA B) has approximately 20,000 employees in 50 countries and net sales of approximately 4.4bn USD.
